To secure a position as a **Software Development Intern or Trainee**. I seek to apply my practical expertise in Java, Python, and Automation to contribute clean and efficient code solutions while advancing my professional development within large-scale technology projects.

TECHNICAL SUMMARY:

Computer Science student at Unifil, holding an international **Red Hat Academy** certification in Python. I maintain a practical portfolio on GitHub demonstrating proficiency in Object-Oriented Programming (Java), Algorithmic Logic (C/Python), and Web Development. Notably, I was the winner of the **Ideathon IntegraQM**, showcasing a strong aptitude for innovation and collaborative problem-solving.
